Digital transformation is the top agenda of Centre and states governments across the country. Governance Now Digital Transformation Summit will focus on a way ahead to accelerate government's digital transformation for larger benefits of citizens.

The vision of Digital India programme is to transform India into a digitally empowered society and knowledge economy. The objective is to come out with innovative ideas and practical solutions to realize Hon'ble Prime Minister Shri Narendra Modi's vision of a digital India. The summit aims to have deliberations and showcase of the best practices across the country (from the centre, state, public sector, and private sector) while discussing the solutions for delivering best in class services to citizens and business.

A day long conference will bring together key stakeholders from all tiers of State and the Centre Government, IT industry, civil society, experts and academia from India and abroad. This would provide a unique platform for the exchange of experiences and ideas, challenges and opportunities in making the country digitally empowered.

Key focus:

- Digital Infrastructure
- Governance and Services reforms through digital interventions
- Digital Empowerment of Citizens

Key Highlights:

- Developing an effective smart government system
- Transforming customers and citizen's experience through disruptive innovation and technology such as Artificial Intelligence, IoT, Block Chain, Industrial 4.0
- Case studies from the centre and state government's successful implementation of digital transformation initiatives.
- How Digitization and tech intervention can further bringing reforms in health, education agriculture, transport, government services, municipal governance social development, business, etc.
- Securing government's digital transformation initiatives (cyber and network security)
- Integration and application of features under Digital India such as, Digital Locker System, MyGov.in, e-Governance, e-Kranti – Electronic delivery of services, Swachh Bharat Mission (SBM) Mobile app, eSign framework, Online Registration System (ORS) under the eHospital application, National Scholarships Portal, Digitise India Platform (DIP), Bharat Net, a high-speed digital highway to connect all 2.5 lakh Gram Panchayats of the country, Next Generation Network (NGN), Broadband Highways are expected to help all sections of society, as they become seamlessly connected over the next few years, interacting, transacting and concluding their business online.
