What is Urban Nextgen Summit 2024?

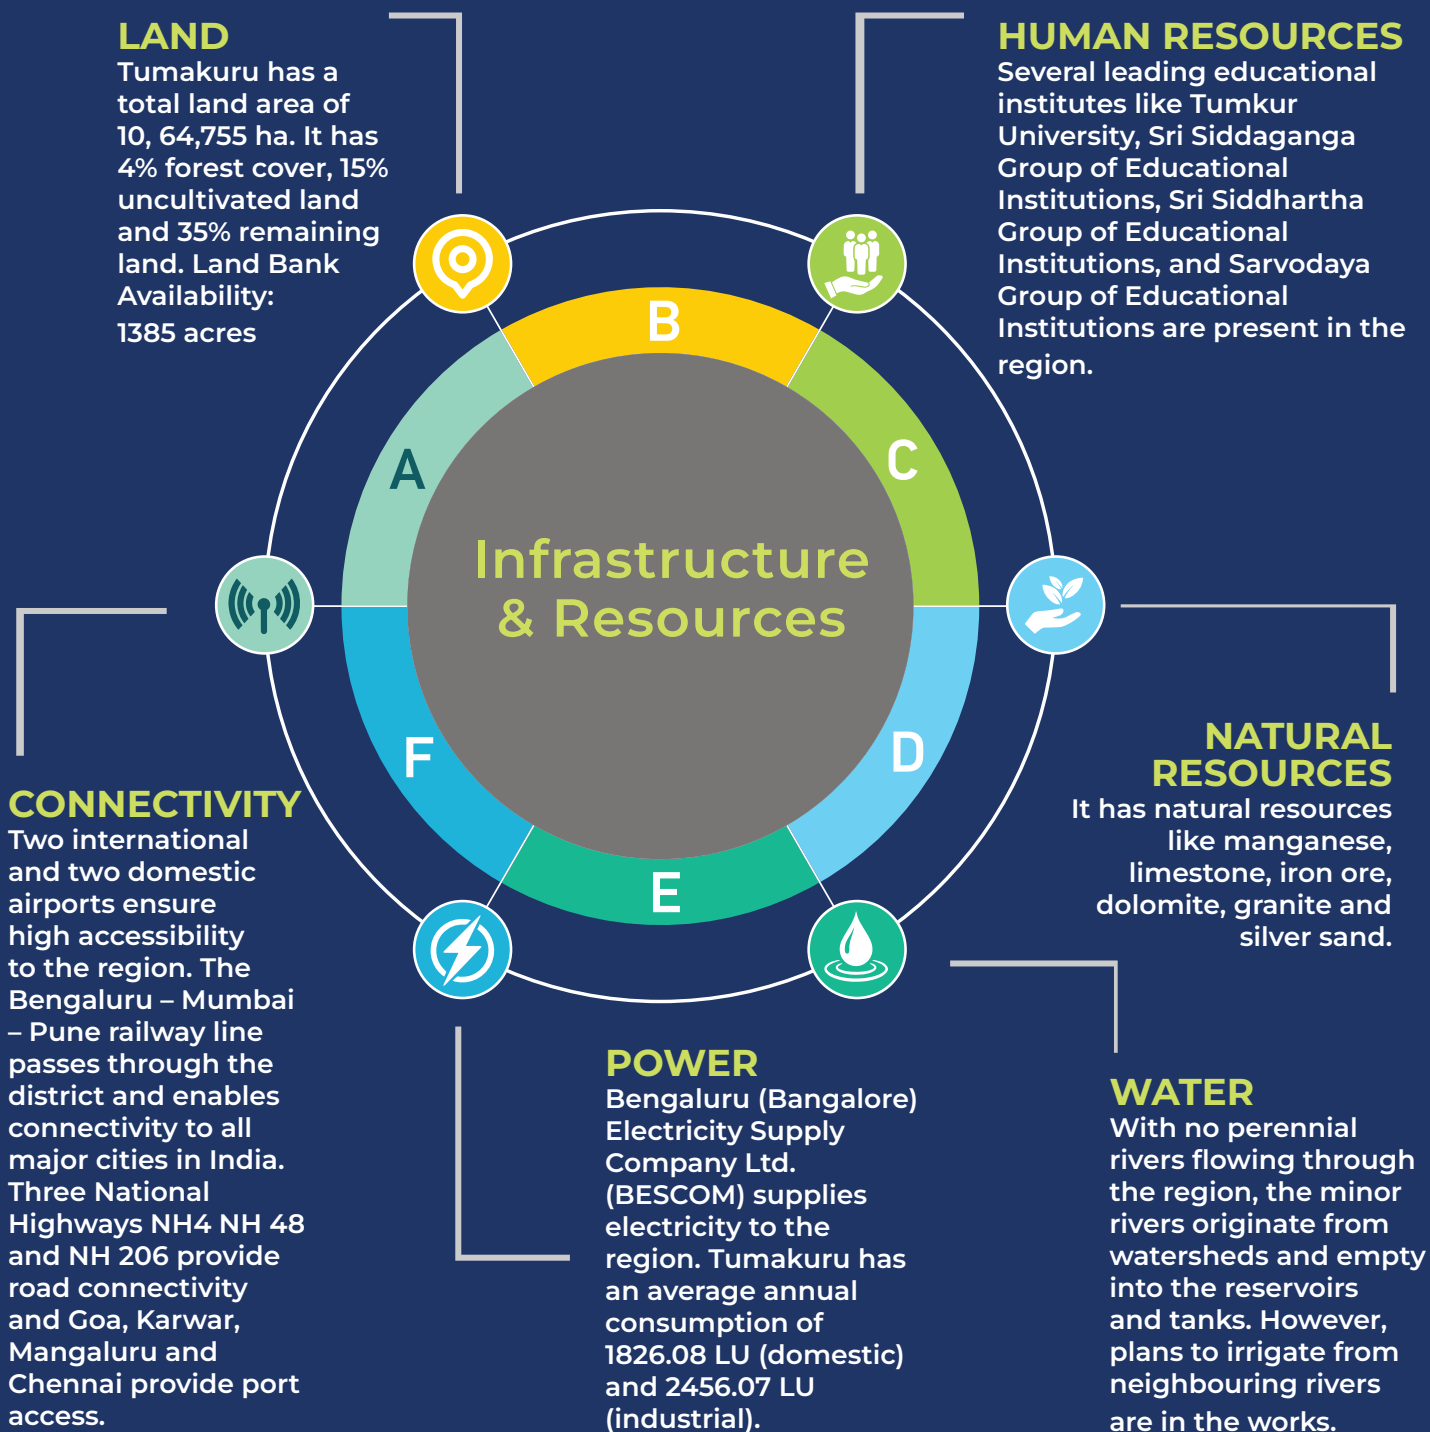

Under the visionary guidance of Tumakuru Smart City, Governance Now, a pioneer publication focused on public policy and governance from the Sri Adhikari Brothers group, is set to organize the Urban NextGen Summit on October 24 and 25, 2024, in Tumakuru, Karnataka. The Summit will bring together leading experts from government, industry, and academia to discuss the trends, challenges, and opportunities present in the realm of smart cities. Visionary innovators, policymakers, industry leaders, and community members will discuss ways to explore and accelerate the transformation of cities into smarter, more sustainable, and resilient urban environments.

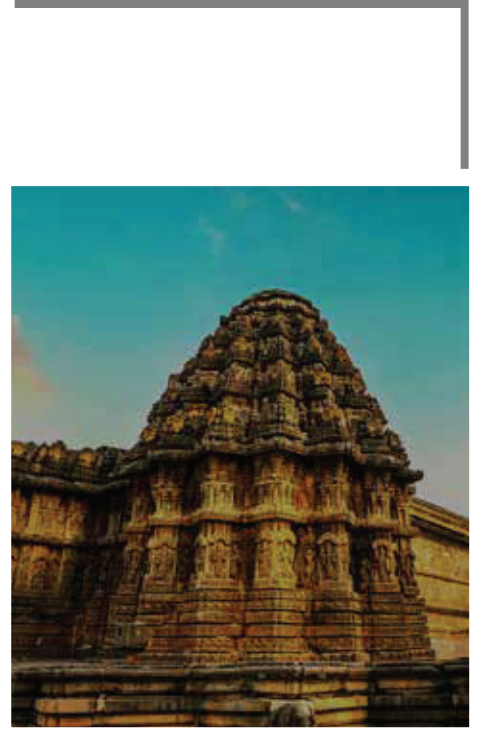

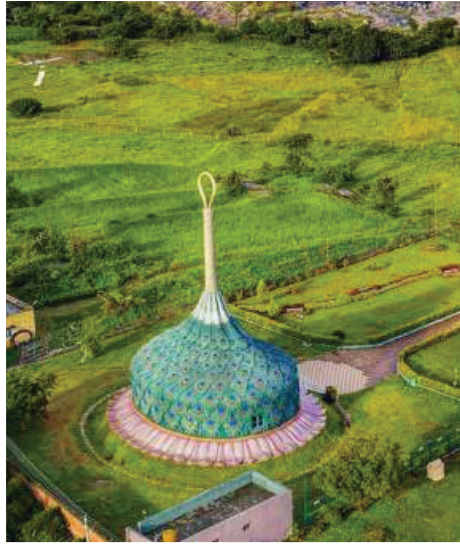

The two-day summit will showcase advanced technologies and sustainable strategies designed to transform Tumakuru as a benchmark smart city.

Governance Now in partnership with Tumakuru Smart City has crafted the Summit to showcase how Tumakuru offers significant investment opportunities and how it is poised to become a leading smart city in the country.

Why Invest In Tumakuru?

Tumakuru, with 9,800 acres of land banks is on the fast track to development and is rapidly developing through specialized infrastructure in sectors like food, textiles, and small industries, creating numerous investment opportunities. The region hosts significant agro-based industries, including rice mills and coir production, and plans for a textile park are underway. Its strategic location positions Tumakuru at the center of the growing domestic automobile markets in Gujarat, Maharashtra, and Tamil Nadu.

Key Discussion Points

**SMART
INFRASTRUCTURE
AND URBAN
PLANNING**
